Margreet Emil Eskharoun Hannaallah

Web Development
Ismailia, Egypt | +20 1203119828| margreetmrmr67@gmail.com

Objective

Aspiring Front-End and Full-Stack Web Developer with strong experience in building responsive user interfaces and practical knowledge of complete web application development. Skilled in HTML, CSS, JavaScript, and modern frameworks, with growing experience in back-end technologies and API integration using tools like Postman. Seeking opportunities to contribute to impactful projects, build clean and scalable architectures, and continuously expand full-stack development skills.

Education

Faculty of Business Information System (BIS),
Suez Canal University Suez Canal University
(SCU)
Business Administration & Programming (2022–2026)
GPA: 3.45/4.0

Experience

Information Technology Institute (ITI)

Frontend Developer

- Built responsive and user-friendly web interfaces using **HTML, CSS, JavaScript, and Bootstrap**.
- Developed dynamic web pages with **Angular** and integrated basic **API services**.
- Learned best practices in UI/UX design and front-end project structuring.

Data Analyst

- Collected, cleaned, and analyzed data using **Excel, SQL, and Python**.
- Created interactive reports and visualizations to support decision-making.
- Applied basic statistical methods to extract actionable insights.

National Telecommunication Institute (NTI)

Mean-Stack

- Developed web applications using **MongoDB, Express.js, Angular, and Node.js (MEAN Stack)**.
- Implemented **CRUD operations, authentication, and role-based access control**.

Digital Egypt Pionners Initative (DEPI)

FULL Stack.Net

- Completed **full-stack development training** focusing on **C#, ASP.NET, SQL Server, HTML, CSS, JavaScript, and Angular**.
- Developed **web applications with CRUD operations, authentication, and role-based access**.
- Implemented **front-end interfaces** and integrated them with back-end APIs and databases.

- Gained practical experience in **building and deploying full-stack projects**.

Courses & Certification

Information Technology Institute (ITI)

o Frontend Developer (162 hours)

HTML, CSS, JavaScript,Responsive Design, UI Basics

o Data Analyst (162 hours)

SQL,PowerBI ,Tableau,Data Mining

National Telecommunication Institute (NTI)

o Mean-Stack (120 hours)

Mongo DB , Angular, JavaScript Mean stack, Node JS, Type Script

HP Design Thinking
Learned practical techniques for human-centered problem solving, including empathy mapping, rapid prototyping, and collaborative design processes to create innovative solutions.

Technical Skills

Languages: C#, C++, Java, JavaScript,HTML5 ,CSS,SQL, JavaScript , HTML, CSS
Frameworks: Angular,NodeJS, Bootstrap,Power BI
Tools:GitHub, Postman, Visual Studio, VS Code

Soft Skills

- Time Management
- Leader ship

- Attention to details
- creativity
- Problem Solving
- Team Work
- Positive Attitude
- Responsibility

Extracurricular Activities

- Member of Wadi Degla Club (since 2015).
- Member of EX-Egypt sports and international teams.

(Organized sports events including PlayStation, padel, and marathon events).

- Organizing committee member – 6th Annual Student Research & Creativity Conference (May 2024).
